CAMILLE SENELLE

EMBEDDED ENGINEERING STUDENT AT 42 SCHOOL

ABOUT

I am a 20-year-old student at École 42, looking for a 24-month work-study program starting in January 2026 or a 6-month internship starting in November 2026 in systems engineering and embedded programming anywhere in France. I am available to start the work-study program 3 months early at the company on a 3-week/2-week rotation schedule.

SKILLS

Programming Languages

- C / C++ / Java
- TypeScript / Python
- Bash / Shell script

Technologies

- Docker / Linux / Nginx
- MariaDB / Postgres

General Skills

- System Programming
- Server Architecture
- Protocol Analysis
- Project Management and Specifications
- Embedded Programming

Langues

- French - Native
- English - Fluent (B2/C1 Cambridge Certification)

PROJECTS

Minisystem (embbeded C / U-boot)

November 2026

- A personal project to develop my embedded systems skills, with the goal of understanding how an embedded operating system works by creating one using cross-compilation tools such as BuildRoot and Linux kernel bootloaders such as U-Boot

Piscine Embedded (C embbeded)

October 2026

- A one-month intensive training course at the 42 Paris campus on embedded programming for bare-metal electronics (no operating system) in C

Webserv (C++)

February 2026 - March 2026

- HTTP 1.1 Server in C++ Development of a web server compliant with the HTTP 1.1 protocol. TCP socket handling, request parsing, modular architecture, CGI process management, and network performance optimization.

Inception (Docker / SHELL)

January 2026 - February 2026

- Design and deployment of a containerized infrastructure, including a web server, database, and related administrative services. Configuration of Nginx as a reverse proxy and management of services via Docker Compose.

MiniRT (C)

October 2025 - November 2025

- Development of a simplified ray-tracing engine capable of rendering 3D objects with lighting, using a graphics library provided by the school. In pairs,

EDUCATION

42 School

Angoulême (Charente)
Information Systems Architecture (RNCP) 2024 - In Progress

Lycée Sévigné

Charleville-Mézières (Ardennes)
General Baccalaureate with specializations in English and Computer Science, Honored with a “Bien” grade, 2023–2024

INTERESTS

- Fencing (12 years)
- Historical European Martial Arts (1 year)
- Bass Guitar (1 year)
- Travel: Egypt, Germany, Thailand, Malaysia, England, the United States, Spain, Italy, Indonesia, Iceland, Belgium
- Role-playing games (5 years)
- Medieval reenactment
